M 18 MAR 1974

Mr. Janney:

As you may remember, I raised the issue of whether this Agency should permit any of its employees to be detailed on a non-reimbursable basis to the Federal Energy Office. Both Simon and OMB are encouraging this course of action, and we now have a case of a GS-06 typist in OJCS who has asked whether this might be possible.

yes but

STATINTL

I talked to [redacted] who does not believe that there is any legal reason for us not going along with the FEO request. As he says, he does not think that participation on the part of one of our employees puts us into any police activities. He does, though, believe that there are other administrative questions and recommends that this be taken up at least at the DD/M&S level.
